

Lesson Plan for Implementing NETS•S—Template II

(Open-Ended Exploration)

This second template or process is for more open-ended explorations where the teacher is doing less designing of specific activities and more facilitating open-ended student explorations. Template without guiding questions.

Grade Level(s)

Title of
exploration

TPaCK- Aligned

Curriculum Connection

Content areas - Essential learnings/questions

Standards (content and NETS•S)

Challenge or assignment given to students (Indicate if there is an expected result, i.e., the task is open-ended but the answer is not.)

Assessment

Prerequisites

Previous content knowledge for students to apply to this assignment

Previous technology knowledge for students to apply to this assignment

Tools and Resources

Tools provided for student choice

Resources provided for student choice

Tutorials and templates provided for students

Resources/Tools to differentiate content or process for students

Timeline, Procedures, Management

Closure and Reflection (including reinforcement activities and bridges/scaffolding to next level)
